It uses a quadruple structure protection filter to protect the respiratory tract from particulates and other harmful substances such as dust and ultrafine dust.

Powerful filtering

Quadruple structure protection filter

3D stereoscopic design

Breath space hard coil

M Mask

Comfortable wear

Our mask maximizes the user's comfort level by using high quality elastic fabric

Adjustable ear bands

M MASK's elastic ear bands allow the user to easily adjust the length to their comfort needs

Feather-link lightness

Don't underestimate the function because of the light weight! Although M MASK weighs around 0.1oz, it has gone through KFDA's (Korea Food and Drug Administration) strict KF94 requirements

Soft inner lining

The Soft inner lining brings Zero irritation to sensitive skin

M Mask design

Keep the best fit with M's luxury 2-dimension mask. MIMASK adjusts according to your face line giving you the perfect fit. Having the comfort softness, THE BEST FIT BY M

Cool Mask

Three-hole
high density filter

Functional
nose support

Comfortable
fit

Filter excellent
adhesion

Cool Mask is a Korean-made disposable mask with a built-in **premium melt blown filter**, so you can use it with confidence

Melt Blown = melt + Blown

The melt blown filter used in the Cool Mask is the core raw material for the KF mask and sea wave filter, and has excellent blocking ability to protect from various harmful substances in life
